Professional Summary

Computer Programming graduate with strong foundations in full stack development, backend systems and cloud technologies. Experienced in building web applications using modern programming languages and database systems. Passionate about scalable software architecture, AWS cloud services and cybersecurity principles. Strong problem solving skills with practical experience in real world projects.

Technical Skills

Programming: Python, C#, JavaScript, PHP, SQL

Frontend: HTML, CSS, Bootstrap, JavaScript, jQuery

Backend: PHP, REST APIs, MySQL, Database Design

Cloud: AWS (EC2 basics, S3 basics), Cloud concepts

Cybersecurity: Secure coding practices, authentication concepts, data validation, basic network security principles

Tools: Git, GitHub, MySQL, VS Code, Linux (basic), Windows

Projects

E-Commerce Web Application (Full Stack)

- Developed a full stack alcohol delivery platform using PHP, MySQL, HTML, CSS, Bootstrap, and JavaScript.
- Implemented user authentication, cart functionality, checkout system and database integration.
- Designed relational database structure and backend logic.

Warehouse Management System

- Built a stock management system supporting order tracking and inventory control.
- Implemented business logic for stock replenishment and process optimization.

Professional Experience

Junior Software & IT Support Intern

Mar 2025 – Jun 2025

Spark Car Rental and Tours, Zimbabwe

- Supported internal applications and assisted in debugging and testing systems.
- Worked with databases to update and manage business data.
- Assisted in automation and reporting tasks.

Education

Bachelor of Science in Computer Programming

Oct 2022 – Jul 2025

University of Information Technology and Management, Rzeszów, Poland

Core Competencies

Full-Stack Development • Backend Architecture • Database Design • Cloud Fundamentals
• Cybersecurity Awareness • Problem Solving
